

A Few Words from Modern Dental

Mike Gerard (5th from right), CEO of Modern Dental Lab USA, visited the International Council during their annual meeting in Denver, Colorado, USA on Oct. 22, 2016.

[Modern Dental Group Limited's](#) history can be traced back to 1986 when it was established as a sole proprietorship in Hong Kong. Through hard work, determination, patience and consistently delivering high quality products that patients and dentists can trust, the group is now a leading global dental prosthetic device provider operating in five continents, producing over 1.3 million cases of dental prosthesis in over 16 countries annually. Our key markets include the United States, Germany, France, Belgium, the Netherlands, Australia, People's Republic of China (PRC) and Hong Kong. Our products are made in each of our world-class production facilities, with our main production facility in Shenzhen, PRC, which stations over 3,500 dental technicians and our very own Modern Dental Training Center. This year, Modern Dental is celebrating its 30th anniversary and is honored to partner with the [International College of Dentists](#) (ICD), which is a prestigious and reputable institution in the dental field. Through our partnership with ICD, Modern Dental looks forward to working together in our aim to further add value to the United States dental field.

Edith Chan

Chief Marketing Officer, Modern Dental Group
